Lawrenceville Citizens Moving for a Breathing Spot.

SCHENLEY TOO DISTANT.

What Prominent Citizens of That District Say.

MILLMEN AND CHILDREN'S WANTS

For several months past an agitation has been in progress in Lawrenceville among the prominent residents to educate the people up to the needs of a park. The only available ground which could be used for such purposes is a plot belonging to egheny Arsenal, between Butler street and Penn avenue, covering about 30 acres. Mr. Samuel Patterson, postmaster of Station B., who has been the initial mover of a number of schemes for the betterment of the working class of the district, has drawn up a petition. The following is a

To the Senate and House of Representatives of the United States.

We, the undersigned citizens of the Lawren swille district, of the city of Pittsburg, State of Pennsylvania, respectfully represent that the United States of America is possessed. of a large piece of ground lying between Butler street and Penn avenue, being part of the ground of the Allegheny Arsenal, which is very little used by the War Department, and which owing to its vicinity to the homes of the workmen in our mills and shops, would make a park of priceless value to the families of all our peo-

Therefore, we do humbly petition the Con-ress of the United States to grant us the use gress of the United States to grant us the use of that portion of the Arsenal grounds during these peaceful times to the end that our people may be cievated and improved by admission to an accessible and healthy place of recreation and rest.

This move on the part of Mr. Patterson is hailed with pleasure by the people of the locality. No part of the city is more deserv-ing of a park than Lawrenceville. Most of the residents of the district are the sons of toil. In the hot summer days the men work unused ground will be a great boon to the neighborhood. That it will be fully appreciated and patronized there can be no doubt.

UNCLE SAM IS RICH. Now that a benevolent lady, Mrs. Schenley, donates a large tract of land near Oak-land, it is not too much to expect that Uucle Sam, who is much richer than Mrs. Schenley, will acceed to the request of the Law-renceville petitioners. Congressman Dalzetl has already asked for a donation of the ground by bill, and when the true wants of gard to the increase of prisoners, as well as the people are set before Congress it is ex-pected that the upper portion of the arsenal

will be thrown open.

Lawrenceville is peculiarly the home of during the past year, which means a large accession to the population. With this fact before the men who are fathering this scheme, they think that a park would not only be a luxury, but an absolute necessity.

The election question for the wardenship which has been so widely discussed is somewhat complicated at present. A care in carvass of the situation shows Smith and outside sports. In the past years it was a

A BOON FOR CHILDREN. There are other considerations which ject. Some open space ought to be pro-vided where the children may go after school has closed. Now the streets are generally packed in the evening by children. If the arsenal was opened the children could go to the nark and it would obviate

on the streets. Mr. Samuel Pattersou, to whom all praise is due for having started this scheme said: "Lawrenceville ought to have a park, and a project is now on foot to obtain that which the neighborhood needs. This dis-trict is the home of the toiling masses. No suburban district of Pittsburg is so badly off for a place of recreation as this district. When the mill men come home from their work in the summer time they are generally tired. Most of them work for ten hours in mills before furnaces, or at the rolls, and when they come home, after washing and dressing, they are not disposed to go three or four miles to a park. The result is that they sit out on the door steps in narrow streets, and in many cases they are denied the free gift of breathing pure air. Let us open this ground. It is lying practically unused now. There is nothing in the wind that we can hear that sounds like war. The United States is at peace with all foreign nations, and more than this the bonds that tie the North and South together will never again be snapped. In face of this fact I think it but a reasonable demand to ask the Congress of the United States to let us have the use of this ground for our enjoyment and for the good health

WILL MEN NEED IT. "Men who toll in mills all day, ought to have a place where they can spend their leisure hours. In this locality there is only the arsenal grounds which can be used for park purposes. It is near the homes of the mill men, and if the Government grant our petition, these toilers will be better able to tackle a day's work after spending the night previous in green

fields and breathing pure sir."

The petition will be industriously circulated, and Mr. Patterson-feels sure that every man in Lawrenceville will sign it. It a long list of names appeals strongly to doughty Congressmen the bill of Mr. Daizell appropriating the arsenal ground to the city will surely be passed.

Dr. Covert, a prominent physician of Lawrenceville, said: "The park project which is now on foot is a splendid idea for this part of the city. For years the people have longed for such a place, where the hard-worked men in our factories and mills can go after their labors are over to breathe pure air and rest their bodies. MONEY IS NEEDED.

"The probability is that the scheme will be enthusiastically favored by the great mass of the community. To convert the grounds into a park would require an expenditure of money to make it attractive. It is question-able, however, in my mind whether the peo-ple would regard it of sufficient benefit or money to instife the additional terimportance to justify the additional taxa-tion necessary to make the improvements. The grounds would have to be laid out in walks and drives; fountains, shrubberles, flower beds and other ornamentations would be required. There is a spring in the grounds which would furnish water it a miniature lake was constructed.

"The appreciation and want of such a park "The appreciation and want of such a park are shown by the thousands who flock there whenever the grounds are thrown open to the public. The Government has no special need for the ground. The lower portion is sufficient for all Governmental purposes. In the summer season music could be furnished by a good band for the elevation of the masses, Music is a desirable feature in all parks. It is not debasics and it has the masses. Music is a desirable feature in all parks. It is not debasing, and it has a clock. The gift was an entire surprise.

wholesome effect in all communities. A park is a good substitute for high license. I

ess relations in the district for many years

said:

"I am glad to see a movement to petition Congress for the use of the arsenal. It is a want long felt. There is no place out this way where people have the advantages that residents in other portions have. Certainly we have a grand cemetery, but people are not over fond of promenading in the city of the dead. It is a morbid feeling that makes a man constantly hang around graves. A PLACE FOR CHILDREN.

"There should be a place provided for our children to go to. It is a sad reflection on our advanced civilisation to see the children playing on the streets and in the alleys. Not only this, it is unhealthy. While children are growing into maturity they ought to have the best places to go to. Such a place as the arsenal would be of great advantage to our children, and I would favor the scheme for this reason, if for no other. "The laboring men, those who toil in our mills, deserve a resting and a breathing place. Their only place now is to loaf on their doorsteps. They cannot get the pure air in the closed up streets. Having a park to go to would conduce to greater social in-

timacy among the people.

Mr. William Reeves said: "I am in favor of converting the upper portion of the arsenal into a park. Anything that I can do to further the scheme I will do. We have long wanted a pleasant resort in this district, and if it can be carried through, it will be hailed with pleasure by all the resi-

Mr. Melvifle Totten said: "I hope the project will be consummated. I favor the park scheme, yet I prefer that the upper end of the arsenal should be sold in lots for resiences. We are cramped for building room in the district." Mr. Patterson, who holds the petition, says that it has been signed by a number of prominent citizens, yet he does not want it to go to representative John Palzell until every person in the district signs at.

THE JAIL'S RECORD.

Big Increase in the Number of Prisoners and Expenses - The Warden Denles

ORGANIZED LABOR CONCERNED Mr. J. D. Weeks Refers to the Condition of

the Steel Market AND TAKES A CONSERVATIVE VIEW

The Allegheny County Light Compan has practically elected to test its strength against that of the united labor organizations and its supporters, in this city and the

The joint committees of the Electrical Union and united labor organizations, representing a numerical strength of about 50,000 men in the county, furnished the company for its consideration an agreement which purported to regulate the conditions under which employes of the company should con-tinue in their work. The agreement included that the men should be sober and steady; that if any of the men should be discharged for incompetency, etc., that the charges should be investigated; that the wages in force should be paid for a certain period, and that all the old workers for the company should be re-employed, except those who had given just cause for their dis-

charge. In reply to the request for an answer to the above suggestions for settlement, in substance the following reply was sent to the committees: "That the company claims, under certain obligations to the public, the right to choose its men; that the present men are satisfactory to the company, and that no reason exists why those men who voluntarily left the employment of the com-pany should be shown favor.

NO FAVOR SHOWN. "And that so long as the men perform the duties assigned them to the satisfaction of the company, no discrimination will be made against them for belonging to or not belonging to an organization, and that al-though there is no question of wages involved, the men will always be dealt with as heretofore-as favorably as men engaged in like pursuits in other places."

General Manager Blaxter said, when

called upon, that the company's reply fully outlined its position. He took the stand that the company was acting in the in-terests of its own contracts and its commercial subscribers, and he added that he did

not expect any trouble.

The Electrical Union met last evening and considered the company's reply. The view taken by the workers is that the company means to assert its strength in the direction of choosing non-union or union labor, at its discretion. The result of a lengthened debate on the question was that the strike would be made general, that all the employes of the company would be CALLED OUT TO-DAY

and that a bitter warfare would commence John D. O'Shea said: "In this matter the Allegheny County Light Company is not solely antagonizing the Electrical Union, comprising a membership of about 200 men, but the whole body of organized labor in this city and county. A very conserva-tive estimate of the members of organized workers in this county places the number at

One of the remarkable features of this difficulty is that the company, at the in-stance of a Southside Councilman, should continue to pay wages to one of its foremen a ter he had been discharged by it. The foreman referred to, Robert Daley, states music on summer evenings, and laying out portions for games. The latter will be a special feature. The young men of the district are practically without a place to enjoy. on very good authority, that the company is laying a pipe to obtain the sole right to supply light to this city, and, of course, to the detriment of another company, which is desirous of obtaining equal rights.

> ME, WEEKS ON THE IRON TRADE. He Fears a Reaction From Present High

Prices-A Conservative View Favored by the Iron Trade Editor. Mr. Joseph D. Weeks, Secretary of the

Western Iron Association, was asked yesterday, whether the association contem plated advancing the selling price of bar iron above the 2 cent point. Reference was also made to a report that the Eastern Association had invited a conference on the question of extras. In this connection, Mr. Weeks said:

"We have not received any communication from the Eastern men asking for a LAST night John Williams, stable boss at Wainwright's brewery, was made the recipient of a very handsome present, in the shape of a parior set. A gift from the drivers. The presentation speech was made by James Mulvaney, Mr. Williams managed to make a fitting response.

A SCHOOL SHORTAGE.

The Appropriation Not as Large as Supposed by \$11,829-Night Schools Will

While preparing his balance yesterday morning preparatory to making his final draft on the Controller's office, Secretary Reisfar, of the Central Board of Education, discovered a shortage of \$11,829. In making

yesterday morning.
Secretary Reistar, when seen by a DIS-PATCH representative last night, said: "It has never been our custom heretofore to give ourselves any concern about the amount that we certified to, because the act of Assembly relating to appropriations for public schools distinctly says that we shall certify to the amount necessary, and that Councils shall appropriate the money. I was, therefore, considerably surprised this morning to find such a shortage.

"Mr. T. D. Keller, Chairman of the

Finance Committee of the board, has been hugging to his bosom the hope that at the close of the fiscal year February 1, we would have a balance of some \$11,000 on hand. As it now is we will have but \$41,ing us about \$4,900 with which to pay the salaries of the night school teachers and

the erection of a dwelling for the janitor of the Pittsburg High School. We are now congratulating ourselves that this matter was not taken up this year. Had we gone tion of \$95,000 for next year. ahead with the building we would not have had sufficient funds to pay the January salries. As it is, we come out even.

"The only hardship the shortage will work is that the night school sessions will be limited to forty nights. A number of the wards have made application for an extra session of twenty nights. It was our intention to asked last evening if he had succeeded in extend the time. Now, of course, we are obtaining a clew to the perpetrators of the unable to do it."

"What authority did the Finance Com-mittee have for its action?" was the query put to the Secretary.

"That is something I cannot explain.
Had the matter been discovered earlier in the year, an investigation might have been nade. As it is we will not sustain any loss. We will now have to cut our coat according a few weeks.

to the cloth." A NEW BAILROAD SWITCH. Oliver Bros. & Phillips to Receive Better

Under such an arrangement 40 cents a day would feed a family of ordinary size. near Shousetown by a Pittsburg and Lake
Erie passenger train and killed.

Max Molterer said, when seen at the Central station, that he had paid \$2.50 for a card from the employment agency, and the other two had also done so, and were sent on wild goose chases for work out of town.

a day would feed a family of ordinary size.

There is another thing to be learned from these statisties, and it is the explanation of how a saloon keeper can sell a glass of beer for 5 cents and throw in a 15 cent lunch. It is a matter of common remark that some saloons furnish a plate of soup and accompaniment with a glass of beer hetter than can be had A WILD GOOSE CHASE.

They failed to find the promised employment, and were returning on foot to this city, their money having been all spent in car fare going down. The bridge is a long, single-track affair, and the men had reached the middle of it when they heard a passenger train behind them. Engel and Stern started to run over the ties, but Molterer, who was a little in the rear, jumped upon a short and narrow platers. With a glass of beer better than can be had in the average restaurant for 15 cents. Some people think safety of the future is bound up in the management of our public schools and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider able portion of future happiness will be found in the dinner pot. Dyspepsia cannot much longer mask itself in the gound others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so in-spiriting, it is safe to say that no inconsider and others place it in various other institutions, but though the idea may not be so institutions, but though the idea may not be so institutions, but though the idea may not be so institutions, but though the idea may not be so institutions, but the idea may not be so institutions, but though the idea may not be so institutions, but though the idea may not be so institution with a glass of beer better than can be had car fare going down. The bridge is a long, single-track affair, and the men had reached the middle of it when they heard a passenger train behind them. Engel and Stern started to run over the ties, but Molterer, who was a little in the rear, jumped upon a short and narrow platform located about the middle of the bridge by Ressra. Berlin and Warner are interesting.

In 1887 bread for the jail cost \$1,775 09 bridge some 50 feet to the ground. Stern meat, \$812 72, and groceries and vegetables was instantly killed, and Engel died a few \$880 24, a total of \$3,468 05. The number 5880 24, a total of \$3,468 05. The number of guests entertained was 5,319, and the cost of feeding them was 6 91-100 cents per day; cost of entertaining guests per head, 9 95-100 cents per day for food and supplies, and total cost per head, including salaries, gas, water, etc., 32 6-100 cents per day. War-den Berlin explained that this cost was considerably increased above the normal and would be less in future, so there is a reasonable probability that boarders may event-ually be kept for \$1 per week, including chamber wards, salaries, etc., as the forego-ing includes over \$1,500 cost of repairing,

turniture, telephone, etc. This was in 1887. At the Claremont House in 1888, the daily At the Claremont House in 1885, the daily average number of guests was 564.121.336 and it cost to keep them \$79,693 75. They did a little work about the hotel for which they were credited in their board bills, \$41,-195 71. The put-a-nickel-in-the-slot-weighing-machine at this hostelrie shows that the

Impurities in the Liver

When the Liver is crowded or clotted with a mass of impurities, its action be-comes slow and difficult. Pleurisy, Headache, Pain in Side, Tired Feeling and General Weakness ensues, result-ing, if unchecked, in

THEY WANT POSITIONS.

Postmaster McKean Already Receiving Applications for John.

James S. McKean, the new post who returned from New York yesterd morning, stated to a DISPATOH reports that he already had received a number applications from persons who wanted posi-tions in the postoffice. "They are apparently unaware of the fact that there is parently unaware of the fact that there is a civil service law," said Mr. McKean, "They ask for positions of any kind, and are not particular about what they get.
"In the conversation I had with Mr. Qusy I was assured by the Senator that I was not under any obligations to him or anyone else for the appointment. This leaves me clear to act as I please, and I will conduct the office on business principles."

ALLEGHENY HEALTH MATTERS.

There is an Epidemic of Typhoid Fever in the City Across the Way. The Health Committee of Allegheny met last night and approved bills to the amoun

of \$1,378 59. City Physician Woodburn stated that the City Physician Woodburn stated that the deaths for the last month numbered 139 typhoid fever, phthisis, whooping cough and pneumonia being the prevailing diseases.

The doctor reported a slight increase of typhoid fever, and stated that he could give no reasons for this. The disease prevails throughout the entire city, the hill wards suffering most.

Identified by a Picture. The identity of Patrick Carney, wh killed at Braddock last week, was est by a picture taken before helywas The relatives of the man identified the through the picture, and his body we transferred from the powers field to Mary's Cemetery.

A W. C. T. U. Anstrorany. The twelfth anniversary of Moorhead Union, W. C. T. U., will be observed at the rooms of the union to-day in Moorhead Hall, on Grant street and Second avenue. Open house to all friends of temperance will be the programme.
